

ENGINEERING & TRAINING SYSTEME

Technical and Aircrew Ground Instructor for Avionic B2

Our Training Centre department has an immediate opening for a Technical and Aircrew Ground Instructor for Avionic B2.

Your place of work: Stans, Schweiz

What you do:

- Preparing and teaching theoretical and practical instructions for aircraft maintenance staff, pilots (only Ground theory) and specialists according EASA Part 147/66 and EASA Part ATO rules and regulations
- Preparing and teaching technical training for Pilatus internal staff
- Define and update customer specific course documentations including exams for our customers
- Definition, production, implementation and update of technical teaching material
- Side tasks related to training environment, e.g. update of hands on parts, software/hardware

What you bring:

- Licensed Aircraft Avionic (B2) engineer
- At least 3 years of experience as Aircraft Avionic engineer or as Technical Instructor
- Pedagogical and didactic basic skills, as well as pleasure in teaching
- PPL or CPL permit will be an advantage
- Excellent communication skills in English (B2) as well as good business etiquette within an international work environment, German would be an advantage
- Readiness for irregular travel globally for training courses
